NORTH AMERICAN GLADS

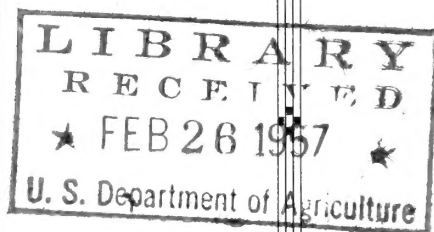

FOR NORTH AMERICAN GARDENS

The Finest in the World

FOR 1957

CORAL ROSE

BRUCE COLLINS

8844 River Road

Utica, Michigan

Foreword

What a switch. From the hottest and driest season in 1955, to the coolest and rainiest season in 1956. The glads made wonderful growth, but were slow to bloom. Excessive rainfall during April and May, prohibited any planting until May 29th, which is at least one month late for us.

Here is the way they performed for me:

Whites: Still have not seen anything to top **Snow Clad**. **Sierra Snow** winning many championships, **Whitecliffe** wonderful, **Angels Serenade** a marvelous exhibition.

Creams: The new **Marco Polo** is a giant. Best of the others would be **Stalwart**, **French Vanilla**, **Tahoe**.

Yellows: Still have not seen much to beat them in this order: **Ming Yellow**, **Golden Boy**, **Sceptre**, **Gold Bond**, **Golden Diana**, **Forsythia**.

Reds: **Howard J. Warr**, still leading the pack, followed closely by **Royal Mounted**, **Red Mill**, **David Warr**, **Red Ryder**, **Harrisburger**.

Pinks: **Coronation**, **Salmon Queen**, **Loretta**, **Boudoir**, **Pink Elegance**, **Pink Harmony**, **Palomar** and **Rose Lustre**, still pretty much up in front.

Rose: The new **Coral Rose**, is the super duper glad in this class. **Rose-lyn**, **Great Day**, **Lori Dee**, **Rosannah**, **Avenger**, **Rosita**, and the oldie **Burma** are in the lead.

Lavender: Not much new, but we shall see some shortly. **Orchid Mist**, **Bridal Orchid**, **Valda**, is probably the finest of the lot.

Orange: **Orange Flame**, **Mandalay** look like the winnah's.

Blues: Actually violets, but we do have two blues. In Violets, I should want **Violet Charm**, **Sailor Boy**, **Blueberry**, but for actual **Blue** get **Blue Peter** and **Hylda Probel**. **Blue Peter** is a medium dark, and **Hylda Probel** light.

Bufs: Show me something better than **Peach Glow**.

Smokies: **Stormy Weather** still my favorite.

Purples: **Wonder Boy**, **King David**, **The Rajah**, lead the list to date.

Black Reds: **Ace of Spades** is easily the winner, with **Black Cherry** following, but the new **Congo** will make them both step up their pace.

We bloomed over 250 seedlings this season, some of which will definitely be heard from in the future.

Among the Barrett seedlings, which we purchased jointly with Sydney Mode, we discovered the greatest array of fine blues, and near blues ever seen. Also the finest medium red gladiolus, I have ever seen. Some extra good pinks in the 300 class, and with the heaviest ruffling I have ever seen.

1957 Introductions

1957 Introductions from what we consider the oldest and finest *Gladiolus* Breeds in the world, bar none.

From Jack Harris, Sarnia, Ontario. Certainly among the topnotchers in the creation of new *gladiolus*, Remember his **Florence Nightingale**, **Forsythia**, **Peach Glow**, **Sierra Snow**, **Snow Clad**, **Gold Bond**, etc., still all standard topnotch glads and you will find them all listed by leading cataloguers.

CORAL ROSE (462) A terrific glad in every way. A beautiful shade of coral rose with slightly deeper throat. All buds are in color at once, opens 10 easily, with balance in color. As big an advance over existing varieties, as **Picardy** was when it was introduced. Has won several Championships, at the Canadian National, Regina, etc., and has been scored 92 by several competent judges. If ever there was a glad worth \$10.00 per bulb, this is it. We had intended to introduce it at \$5.00 for any size bulb, but it is a splendid propagator, and will therefore be introduced at popular prices. Field height 56".

Large \$3.00; Medium \$2.00; Small \$1.00; Blbts. 35c or 3 for \$1.00

MARCO POLO (507) Like the giant in history, this huge cream, with cerise throat has texture like cordovan leather, Grows 66" to 72" easily, with 21 buds, and opens 10 with 11 in color. Stands heat, rain and wind like armour plate. Dwarfs everything else in the field. Has been scored 92 in several seedling shows. If you want a real giant glad, with class and finish, here is your glad.

Large \$3.00; Medium \$2.00; Small \$1.00; Blbts. 35c or 3 for \$1.00

With the purchase of one bulb of each of the above, or two of either variety at retail, you will be presented with one bulb of **Atlantic Dawn**. This is a tall blue gray sport of **Eliz. the Queen**, with a cerise throat, which grows 56" tall and is the only attractive sport of **The Queen**, I have ever seen. Selected by Jack Harris, and will be introduced at popular prices in 1958.

MICKEY (214) A fine new light yellow miniature, with each petal edged in rose. A real 200 size miniature, which grows 40" tall, with 17 buds, opens 7 with 6 in color. One of the nicest little fellows you have ever seen. Has scored 88 in several seedling classes, and in my opinion, a real addition to the miniatures.

Large or Medium \$2.00, Small at \$1.00, with Blbts. at 5 for \$1.00

From James Kydd, Verdun, Quebec

FLORADORA (406) The sensational release of the year and one of the finest exhibition glads ever introduced, a magnificent large, creamy white deepening to cream in the throat in which appears a few red marks. Attains a field height of 60 inches, flowerheads 28 to 32 ins. 22 to 24 buds, opens eight, blooms midseason, excellent attachment and ideal formal placement. Floradora is a vigorous grower, unusually healthy, produces grand bulbs and a rapid propagator. Another great descendant of **Susannah** as is **Coronation**, **Pink Elegance** and **Angel Serenade**.

Large \$3.00, Med. \$2.00, Sm. \$1.00, Blbts. 10 for \$3.00

Sold only with purchase of a bulb

Grower's Unit—2L, 3M, 8S, 75 Blbts. for \$25.00

PURPLE JET (470) A tall growing purple that reaches for the sky and leaves a long ribbon of bloom. Grows over five feet with a head of thirty inches, a very promising exhibition variety that is exceedingly healthy and robust. The florets have a white line on the lower petals, excellent attachment and placement opening 8 to 10 at once and blooming in mid-season. Purple Jet is another great glad from the originator of the popular **Rosannah**.

Prices same as Floradora

From Walter White, St. Therese, Que.

BLUE BUTTERFLY (476) A pale ruffled blue with a deeper blue throat. This is an exceptionally strong grower with unusual robust health. A fitting mate for the noted Blue Peter. This early blooming (70 days) variety grows to 60 inches in height, flowerhead 30 inches or longer, opens seven $4\frac{3}{4}$ -in. florets of 22 buds. Bulblet production and germination very good.

Bulbs any size \$5.00 each or one bulb and 10 Blbts. for \$10.00
Grower's Unit—1L, 1M, 5S, 25 Blbts. for \$25.00

JOLICOEUR (Jolly Heart) (561) A large, beautiful, light rose pink displaying a deep red blotch on each of the two lower petals which makes a very striking and spectacular effect. Jolicoeur opens seven large, ruffled florets, $5\frac{1}{4}$ ins., 21 buds, 28 in. flowerhead and grows 60 inches in height. Blooms midseason. This variety has been outstanding in our field the past two seasons.

Bulbs any size \$3.00 each or one bulb and 10 Blbts. for \$6.00
Grower's Unit—1L, 2M, 7S, 50 Blbts. for \$25.00

MOUNT ROYAL (552) A really fine healthy, strong growing deep red with a beautiful lustre of petal like silk. Truly a regal flower. Open seven $5\frac{1}{2}$ in. florets of 22 buds on a 30 in. head. Grows five feet and blooms in 90 days.

Large \$3.00, Med. \$2.00, Sm. \$1.00, Blbts. 10 for \$3.00 with a bulb
Grower's Unit—2L, 3M, 8S, 75 Blbts. for \$25.00

To Swell Releases from the Percy Barrett Seedling, Released Through
My Good Friend Sydney Mode, Vankleek Hill, Ontario

BLUE DIAMOND (476) The bluest blue and as gorgeous and glittering a gem as its namesake. Certainly a great improvement in blue coloring and a glad whose color improves as it opens indoors. Medium blue with a tiny feather of similar shades on a creamy throat. Blooms very early, produces excellent bulbs and makes fine increase and growth from bulblets. Attains a field height of 50 inches, flowerhead 25 ins., 20 buds, opens six large attractive florets. Bound to become very popular as a garden glad and pollen variety as well as an exhibition flower. Definitely a \$25.00 glad but priced most reasonably so all can try.

L \$3.00; M \$2.00; S \$1.00
Starter Unit—1M, 1S, 10 Blbts. for \$5.00
Grower's Unit—3M, 10S, 100 Blbts. for \$25.00

HONEY LOU (466) A rare beauty, a glorious blending of rose and lavender, lightening to a buff throat. The large, attractive florets are very ruffled and frilled, of exceptional texture, securely attached and well placed on a strong stem. Honey Lou is a wonderful addition and will easily prove to be as attractive and outstanding in the lavender class as Coronation has done in the pink. Exceedingly healthy, blooms mid-season, grows to a height of 54 in., flowerheads 25 to 29 inches with 20 to 22 buds, florets 5 inches. (The spike in the photo had a 31-in. head) Stock of this variety is very limited but large bulbs will be supplied as long as supply permits.

Prices same as Blue Diamond

From E. H. Lins, Cologne, Minn.

HOT PARADE (368) The finest lavender I have seen or grown in the 300 size. Grows 48 in. to 50 in. tall, with 19 buds, ruffled, and opens 8 on a 20-bud spike. A grand new lavender commercial, that you will eventually own. A tremendous propagator, hence the low introductory price.

Any size bulb \$1.00, or 3 for \$2.50

FAR EAST (410) A huge ruffled and waved chartreuse yellow, with a bright scarlet throat spot. Open 8 on a 20-bud spike, tall, straight vigorous, and a chartreuse addition to **WHITE TOWER**.

Any size bulb \$2.00, or 1 bulb and 10 Blbts. for \$4.00

General Bulb List

ACE OF SPADES (454) The ace of black reds. Opens 6 nicely ruffled 5 in. florets on long flowerheads. Sensational and very popular.

Some glads grow well in cool Canada. Some glads grow well in Florida. Some are at home in Holland, and some prefer the Mid-western United States. Most failures of home gardeners are due to getting hold of glad varieties not suited to their climatic and soil conditions.

But some varieties of glads do well everywhere! AAGS was formed as a non-profit organization of glad lovers—commercial and amateur alike—to thoroughly test new varieties and to pick out those which seem to grow superlatively well in ALL parts of the United States and Canada.

The map shows where the test gardens are located. The experienced judgment of thirty judges gives you your best assurance of dependable varieties.

The All-America Selections are each patented to insure control of bulb quality, and are sold by all reputable dealers at uniform prices—the lowest ever for new introductions.

FOUR RUFFLED BEAUTIES

MAYTIME—A home gardener's "must" and a wonderful arrangement flower with striking color contrast. Grows 66 inches tall, opens 10 florets, blooms in 70 days. Show class 462. (Plant Pat. Pending.)

CARIBBEAN—Unusual color and vigorous health. Precise formal placement, with medium size florets on a tall plant. Show class 376. Blooms in 70 days. (Plant Pat. Pending.)

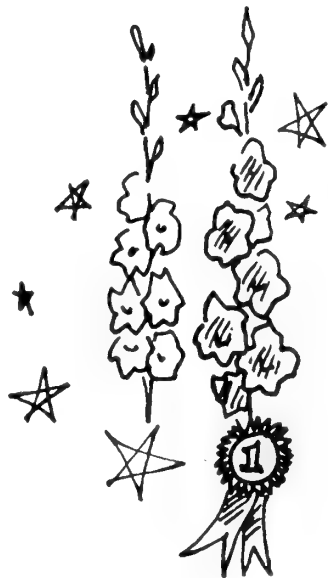

APPLEBLOSSOM—Creamy white floret with pink corona, giving a delicate pink effect. Easy grower, healthy, and very early (blooms in 65 days). Show class is 460 and this is a home gardener's delight. (Plant Pat. 1517.)

ROYAL STEWART—The first AA selection and the best of the reds. Show class 450, blooms in 80 days. A dependable grower, producing tall, formal spikes. Especially fine in hot weather. (Plant Pat. 1339.)

CULTURE OF GLADIOLUS

AAGS recommends these steps for growing glads:

- (1) Open package at once and store bulb in cool dry place.
- (2) Plant at intervals of 10 days from last killing frost. Early plantings can stand moderate frost.
- (3) Plant in open sunny place, in bed or row, and in any well drained soil.
- (4) Plant bulbs 5 inches deep, at least 4 inches apart. Use any good commercial fertilizer, but do not put it in contact with the bulb.
- (5) Glads like plenty of water, especially when bud is forming.
- (6) When cutting, leave 4 leaves to mature the bulb.
- (7) Thrips are insect pests of glads. For complete control, use DDT dust or spray every 10 days.
- (8) Some growers soak bulbs in Lysol solution for 2 hours before planting and plant wet. Use $1\frac{1}{4}$ teaspoons Lysol to 1 gallon water.

Fragrant Varieties

By O. B. SPENCER

DARK FRAGRANCE (454) A grand ruffled maroon carrying 19 buds, with 6 open. 5 in. florets. This is positively the first dark red glad. A really great discovery.

L \$1.00; M 60c; S 40c; Blbts., 10 for \$1.00

PINK FRAGRANCE (340) Similar to **This Is It** in growth, form and fragrance, but a clear light pink with lighter throat. 4½ in. florets with 6 open on a 19-bud spike.

L 60c; M 40c; S 20c; Blbts, 10 for 60c

PROGRESS (364) Ruffled rose red of medium height with 8 open on a 17-bud spike. It carries a definite rose fragrance.

L 35c; M 25c; S 15c; Blbts., 10 for 50c

RED SCENT (436) A sister of **Dark Fragrance**. A brilliant scarlet which would be a fine glad without fragrance. 17 to 19 buds, with 6 open. Heavily ruffled. Excellent fragrance. Our first good red fragrant.

L \$1.00; M 60c; S 40c; Blbts., 10 for \$1.00

SACHET (300) Ruffled pure white with medium sized florets that carry a nice persistent fragrance. It blooms nicely from any size bulbs.

L 50c; M 30c; S 20c; Blbts., 10 for 50c

SWEETIE (251) A new fragrant glad in a showy light red with a big white throat. 3 in. florets that are nicely ruffled. Will open 6 on a 14-16 bud spike. Dainty spikes from small bulbs that make lovely arrangements.

L 60c; M 40c; S 20c; Blbts., 10 for \$1.00

THISISIT (432) Nice clean deep salmon with about six 4½ in. florets open. The fragrance is noticeable in newly opened florets, and when cut and opened inside.

L 20c; M 2 for 25c; S 3 for 25c; Blbts., Pkg. 25c

YELLOW ROSE (432) This is believed to be the most fragrant variety to date. A very fine variety aside from its fragrance for it opens 6 or more 5 in. nicely ruffled blooms on a tall straight stem.

L 60c; M 40c; S 20c; Blbts., 10 for 60c

Goslings Dragons

DOUBLES AND DECORATIVES

CRYSTRAUM: An ethereal lavender, tinted white of double parentage useful in breeding for doubles. On occasion it doubles its florets.

L 35c; M 25c; S 20c; Blbts. 10 for 50c

DINOSAUR: This is variable, ranging from sprawling blossoms like **Grey Dragon**, to spurred double florets, color always in bright orangy pink.

L 35c; M 25c; S 15c; Blbts., 10 for 35c

FAIRY DRAGON: This dragon is the key to the fairyland of new shapes, forms and types of dragons. Usually it bears fine needle spurred cupped florets in lavender pink, but occasionally it produces creased and fluted petals.

L 20c; M 15c; S 10c; Blbts., 10 for 25c

GLORY DRAGON: A spurred sport of **Salman's Glory** with the same color and beauty. Tall, vigorous and a splendid seed setter.

L 75c; M 50c; S 25c; Blbts., 10 for \$1.00

GREY DRAGON: Orchid type, with sprawling florets, folded and spurred, in lavender grey smoke. The oddest floret you ever saw, especially interesting in floral work.

L 25c; M 20c; S 15c; Blbts., 10 for 25c

MANYPETALS: A deep **Burma Rose** double. Tall strong stems with 12 to 14 open. The multitude of petals are twisted and lacinated profusely. Large bulblets often bloom. Stock is limited so order early.

L \$3.00; M \$2.00; S \$1.00; Blbts., 4 for \$1.00

MOTHER DRAGON: A lightly spurred, long headed salmon pink "Face-up" with ability to produce good seed. This and **Fairy Dragon** are the most satisfactory seed producers. Extremely limited stock.

L \$1.00; M 75c; S 50c; Blbts., 10 for \$1.00

MULTIPETAL: From Arthur Koerner's original stock. A many petalled double of dragon parentage it produces a high percentage of doubles, when bred on to seed bearing dragons.

L 25c; M 20c; S 15c; Blbts., 10 for 25c

PETALS OF EIGHT: A short-headed yellow, usually having two extra petals per floret giving it a peculiar density. Not a dragon.

L 25c; M 20c; S 15c; Blbts., 10 for 25c

PINK SPURS: An odd taller Dragon, with mottled spurred buds, which open to coral pink cups, facing up. A weird and haunting beauty.

L 25c; M 20c; S 15c; Blbts., 10 for 25c

RELUCTANT DRAGON: Next to **White Dragon**, this one is the most beautiful of the dragons. A beautifully ruffled and spurred "face-up," in salmon, with a yellow throat. Nice long flowerhead, 15 to 18 buds holding 5 to 7 open. Another real gem in a novelty. Hybridizers please note. Limited stock.

L \$1.00; M 75c; S 50c; Blbts., 10 for \$1.00

ROSE ORCHID: Technically a glad, but more like an orchid. It carries 8 to 10 heavily lacinated, spurred and interlocking florets. Very unusual and a lovely corsage maker.

L \$1.50; M \$1.00; M 75c; Blbts., 10 for \$1.50

SHAGGY DRAGON: A large bright salmon double. Not as double as **Carniola** or **Multipetal**, having 12 to 15 petals in cupped "face-ups."

L 25c; M 20c; S 15c; Blbts. 10 for 25c

The FAIRY GIANT: The giant of Dragons. 6 to 8 huge, hooded lavender florets with spurred petals and about 6 extruded, bristling buds above in perfect form. The florescence is huge and massive, the plant should be staked.

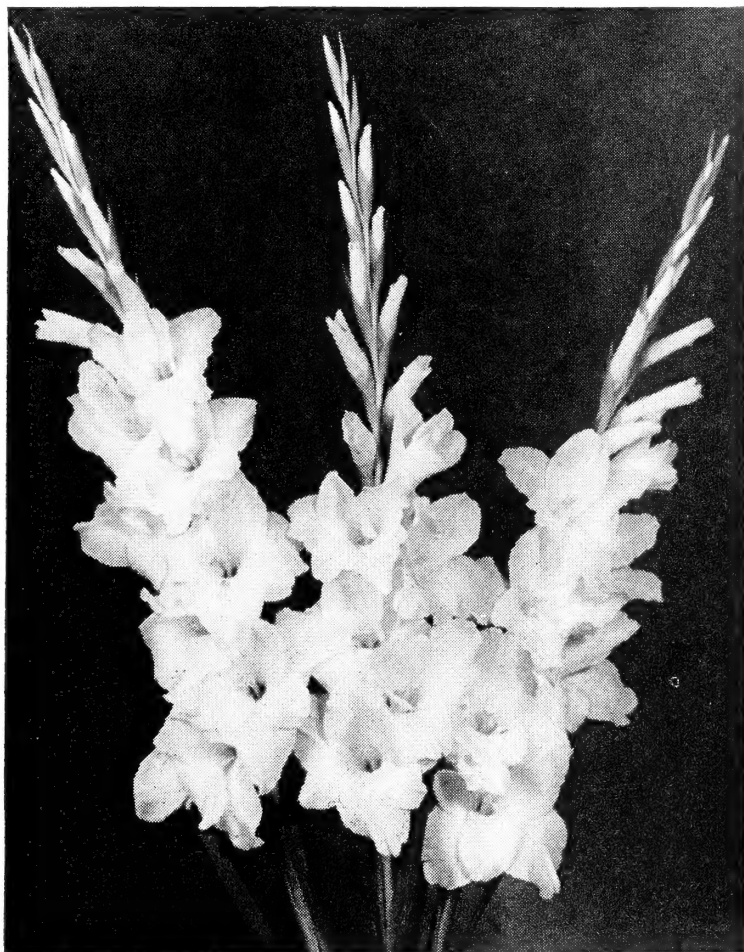

L \$3.00; M \$2.00; S \$1.00; Blbts., 4 for \$1.00

TRUE PURPLE: A blue purple breeder of great value to the hybridizer looking for good blues. Makes good seeds, which grow to large seedlings in one season, giving a high percentage of healthy near blues. Another gem for you hybridizers.

L 50c; M 35c; S 25c; Blbts., 20 for \$1.00

WHITE DRAGON: Globular creased and crinkled florets of heavy texture in ivory white with a pink dot in throat. Complex spurs on this clustered bloom make it appear double, and a rare delight for arrangers.

L \$1.00; M 75c; S 50c; Blbts., 10 for \$1.00

SNOWCLAD

"New Exotic Hybrid" Gladiolus

New "Exotic Hybrids," not just another gladiolus, with probably a different color or form of floret. But a completely new race with an entirely new concept of gladiolus use for the home and for floral use.

The long stiff gladiolus spike may be a masterpiece on the show table, in a basket or tall vase. But it becomes rather impossible to use that same spike in an arrangement suited to modern needs in our smaller homes.

The "Exotic Hybrids" were developed with only one purpose in mind, more flowers to be used by more people in their homes and daily lives.

The spikes are not long and some varieties crook considerably. Sister Elizabeth Kenny has eight long lacy petals per floret, the spikes are supported by long thin stems and over half will bend to the ground. Yet we considered it outstanding enough to apply for patent, and others in position to know, agree with us.

Most "Exotic Hybrid" varieties have double florets. Here again the spikes are not long. But florets with up to twenty-five petals are not uncommon, giving a fullness to floral work no other gladiolus can equal.

KOERNER'S MEMORY (Doerr 55)

Four-inch florets varying in color from salmon to the outer edge of petals to pink and blending to cream in the throat, giving it a peaches and cream combination. Has up to 18 petals per floret. 12 buds on 18-inch spike, 4 open, 4 in color.

Any size bulb \$1.00; Blbts., 10 for \$1.00

SISTER ELIZABETH KENNY* (Doerr 55)

Eight long lacy petals in a light cream shade tending to green in the throat. The 5 inch florets are carried 10 on a 16 inch spike, 4 open, 4 in color.

Large or medium bulbs \$1.00

ORCHID DRIFTWOOD (Doerr 55)

Twelve 3 inch oddly shaped florets on a 16 inch spike gives it a driftwood effect in floral work. Each floret has 12 petals, orchid lavender, shading to cream in throat.

Any size bulb \$1.00

ARTHUR C. KOERNER* (Doerr 56)

A beautiful red charm color with up to 18 petals per floret. Twelve 3-inch florets on an 18-inch spike. 4 open, 4 in color.

Any size bulb \$1.00

MULTIPETAL NO. 1 (Koerner)

Multipetal No. 1 was the pollen parent of all "Exotic Hybrids" listed above. Originated by the late Arthur Koerner of Minnesota some years ago. It was placed on the market at \$10.00 per bulb. Makes a medium sized plant with florets of 12 petals and more. Pale yellow in color with bright red deep in throat. Very nice in floral work.

Any size bulb 50c; Blbts., 10 for 50c
